

Problem C – Good Morning Until the List Ends

Time limit : 3 seconds

Problem Description

The head organizer of the computer camp loves saying "Goodmorning" to everyone she meets. Even if she meets someone at night, she still says "Goodmorning." Today a staff member gives her a list of names, but no one knows how many names are on the list. She decides to say good morning to every name on the list, until there are no more names to read.

Input Format

Your program is to read from standard input. The input consists of several test cases. Each test case contains only one string name, representing the name of a person she meets. The input ends at the end of file (EOF).

Output Format

Your program is to write to standard output. For each test case, print exactly one line containing the string "Goodmorning " followed by the value of name.

Technical Specification

- You may assume the input name contains no spaces.

Sample Input

Lynn
Jim
Wenci

Sample Output

Goodmorning Lynn!
Goodmorning Jim!
Goodmorning Wenci!
